

Tilted Cross

D A E

D A E E7 E6 E
There's a message that's been left in the long grass by a stranger who's
passed this way before

E7 E6 E D A

Planted seed from which we reap a bitter harvest from his long forgotten
war

E7 E6 E D A

I left my love in a grave and I marked it with a cross that stands so
straight and true

It's not alone in the shade of the valley, they're what remains of the
ones we once knew

B E B E
Walk with me, my child but tread softly on this earth
B E B (NC)
Keep a close eye where your feet, they touch the ground

G D F E
Watch out for the signs and heed what they say

G D B E B (NC)
One false step and all is lost

D A E
In the land of the tilted cross

E7 E6 E D

They lie beneath the needles of the forest, in the fields where only
shadows dare to play

E7 E6 E D

Washed down from the slopes of these mountains in the spring when the
snow melts away

E7 E6 E D

So be sure when you go on your journey, carry sticks, mark the spots where
they are found

E7 E6 E D A

Make a cross and be sure that it's tilted so that others don't step upon
this ground

B E B E
Walk with me, my child but tread softly on this earth

Keep a close eye where your feet, they touch the ground

Watch out for the signs and heed what they say
