

State Of Mind

Esus4

I don't trust the government, I don't trust alternatives

It's not that I'm paranoid, it's just that's the way it is

Bm A E
Every day I hear a little scream inside

Bm A E
Every day I find it's getting louder

Bm A/C# E
I just want to reach out and touch someone

D E
'Cause I find I need a friend in this dark hour

B E
We the people are gettin' tired of your lies

B E
We the people now believe that it's time

C#m G#m A
We're demanding our rights to the answers

D F#m Esus4
We elect a precedent to a state of mind

I trust in conspiracies, in the power of the military

In this wilderness of mirrors here, not even my speech is free

Bm A E
Every day I hear a little scream inside

Bm A E
Everyday I find it's gettin' louder

Bm A/C# E
I just want to reach out and touch someone

D E
'Cause I find I need a friend in this dark hour

B E
We the people want it straight for a change

B E
'Cause we the people are getting tired of your games

C#m G#m A
If you insult us with cheap propaganda

D F#m Esus4
We'll elect a precedent to a state of mind

Bm A E
Every day I hear a little scream inside

Bm A E
Every day I find it's getting louder

Bm A/C# E
I just want to reach out and touch someone

D E
'Cause I find we need a friend in this dark hour

B E

When we the people have our backs to the wall
B E
Do we the people then assume control?
C#m G#m A
When it's too late to stop our own execution
C#m G#m A
When we're faced with the final solution
C#m G#m A
You can't elect a dream revolution
D F#m Esus4
When you've a bullet in the back of your mind
It's just a state of mind (I hear a little scream inside)
It's getting louder (state of mind)
It's getting louder, it's getting louder
